Lion’s Approach to Tax

Approach to risk management and governance arrangements in relation to UK taxation

The primary role of the Lion Group Tax team is to ensure the group complies with all tax laws and its statutory obligations, whilst the business pursues its commercial objectives.

Lion’s tax risk management framework and governance approach has been approved by the Board and aligns to our Corporate Governance Framework.

The roles, responsibilities and approval structure under Lion’s Corporate Governance Framework are summarised in the diagram at page 4 of “Lion’s 2018 Tax Transparency Report”. Refer: https://www.lionco.com/content/1911_lion_tax_transparency_report_03A%20%2804%29.pdf

Attitude to tax planning

Lion’s approach to tax planning is to operate, file and pay taxes on time and in accordance with the laws in the relevant jurisdictions in which it operates (in the present case, the UK). Consistent with Lion’s Risk Management Framework, we do not engage in aggressive tax planning. Lion does not operate in tax havens or in low tax jurisdictions.

Tax laws are inherently complex and subject to change and interpretation over time. Where necessary, Lion consults with HMRC for clarity on the operation of the tax laws in the UK. Lion also seeks independent specialist tax advice as appropriate to ensure identifiable tax risks are managed and documented. This could relate to one-off significant business transactions or day-to-day compliance obligations.

Level of risk in relation to UK taxation that Lion is willing to accept

Lion’s internal tax guidelines provide a formal mechanism to escalate perceived and actual tax risks to the Lion Group Tax team. Under these guidelines, the Lion Group Tax team is required to review and assess tax risks prior to signing off on the below transactions:

- Mergers, acquisitions & divestments;
- Organisational restructures (including change in shareholdings, amalgamations, liquidations, commencing operations in a new jurisdiction or existing an existing jurisdiction); and
- Cross border transactions relating to inventory, licensing, funding and services.

The Lion Group Tax team advises the business on the tax consequences and risk mitigation options, based on commercial considerations and the underlying economic substance.

Where material tax issues are identified by the Lion Group Tax team, the Lion Group Tax Director is then required to report this to senior management, the Audit Finance and Risk Committee and/or the Board.
Approach to dealings with HMRC

The Lion Group Tax team actively engages with our HMRC Customer Compliance Manager in an open, constructive and transparent manner to help HMRC understand our business, our approach to risk management and our governance arrangements.

This helps to ensure Lion’s compliance with ongoing UK tax obligations, allows us to provide significant transaction updates to HMRC and allows us to provide timely responses to specific taxation reviews and/or queries raised by HMRC.
